

MUHAMMAD SAZZAD HOSSAIN

Dynamics 365 & Power Platform Developer | .NET Full-Stack Engineer
+880 1348-060558 | sazzadfahimse@gmail.com | Rampura, Dhaka-1219, Bangladesh
[LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Microsoft Dynamics 365 developer with nearly 2 years customising, configuring, and extending D365 for an Australian consultancy from offshore — building **C#.NET plugins**, Azure Functions integrations, Power Apps, and Power Automate workflows, delivered in Agile sprints via Azure DevOps. Backed by 3+ years of enterprise engineering across C#, ASP.NET Core, JavaScript/TypeScript, and Azure cloud. Experienced collaborating with international stakeholders and functional consultants to ship scalable, maintainable solutions.

CERTIFICATIONS

Microsoft Certified: Power Platform Developer Associate (PL-400) • **Microsoft Certified: Power Platform Fundamentals (PL-900)**

PROFESSIONAL EXPERIENCE

Offshore Dynamics 365 Developer — Illuminance Solutions (Perth, Australia)

Contracted through ImpleVista BD Limited, Dhaka | 2024 – Feb 2026

Project: AvantCare — Dynamics 365-based care management solution (Dynamics 365, .NET, C#, Azure Functions, Power Apps, Power Automate, Angular, React)

- Develop and maintain **Dynamics 365 plugins in C#.NET**, implementing server-side business logic triggered by platform events to enforce data integrity and automate record processing.
- Build **Azure Functions** that extend D365 with custom integrations and background processing, ensuring the solution scales securely in the cloud.
- Create and maintain **web resources and embedded UI** using Angular, React, and **Power Apps**, improving the day-to-day experience of care-sector end users.
- Automate business workflows with **Power Automate** and integrate Azure cloud services with Dynamics 365, with a focus on scalability and security.
- Work in **Agile Scrum/Kanban sprints via Azure DevOps Boards**, collaborating remotely with the Perth-based delivery team — estimating, tracking, and shipping work iteratively for an international client.

Software Engineer — ImpleVista BD Limited

Dhaka, Bangladesh | 2023 – Present

Project: CUBIS — Co-operative Credit Union League of Bangladesh (ASP.NET Core, C#, Angular, SQL Server)

- Develop features across the **ASP.NET Core backend and Angular frontend** of a fintech platform serving the organisation's financial operations.
- Participate in code reviews, troubleshoot production issues, and refactor for maintainability and regulatory compliance.

Projects: IV Trip & IVHR — Multi-tenant SaaS platforms (Travel Management / HR & Project Management)

(React, TypeScript, Node.js, Express, MongoDB, Azure)

- Build full-stack features on multi-tenant SaaS products: role-based access control with login-time menu generation, Kanban task boards, and a document management system with OCR-powered full-text search backed by **Azure Blob Storage**.
- Maintain **Azure App Service deployments and Azure Pipelines CI/CD** (Docker), diagnosing production issues with Application Insights and log streams — cloud skills that transfer directly to D365/Azure solution work.

TECHNICAL SKILLS

Dynamics 365	Customisation & configuration, plugin development (C#.NET), custom workflows, business process flows, solution management, extension development
Power Platform	Power Apps, Power Automate, Dataverse
Integrations	REST APIs, web services, OData, Azure Functions, third-party & enterprise system integrations
Languages	C#, .NET Framework & .NET Core, JavaScript, TypeScript
Azure	Azure Functions, App Service, Blob Storage, Service Bus, Pipelines (CI/CD), Application Insights, Azure DevOps Boards & Sprints
Frontend	Angular, React, Tailwind CSS
Databases	Dataverse, SQL Server, MongoDB
Practices	Agile (Scrum & Kanban), testing & deployment, production releases, technical documentation, code reviews, Git, international team collaboration

PUBLICATION

"A CNN-Based Strategy to Classify MRI-Based Brain Tumors Using Deep Convolutional Network" — *Applied Sciences*, 2023, 13(1), 312.

EDUCATION

East West University — B.Sc. in Computer Science and Engineering

Graduated January 2022
